

Deepak Jain

React Js Developer

Email: deepakjaindj052@gmail.com

Phone No. 8209086250

Summary

I am a highly motivated and skilled React Developer with approx. 4 years of professional experience in building and maintaining scalable, user-friendly, and high-performance web applications. I have a solid understanding of frontend technologies and hands-on experience in creating dynamic and responsive user interfaces using React.js, Redux, TypeScript, and modern JavaScript (ES6+).

In addition to my expertise in frontend development, I have strong knowledge of backend technologies, including Node.js, Express, MongoDB, and RESTful APIs, allowing me to work effectively across the entire stack. I specialize in optimizing website performance by implementing techniques such as lazy loading, code-splitting, server-side rendering (SSR), and caching strategies, ensuring a seamless user experience.

Skills

HTML, CSS, JavaScript, ReactJS, Next-JS, Tailwind-CSS, ANTD, MUI, React Native, NodeJS, Express-JS, MongoDB, Git-hub

Experiences

Ezulix Software Pvt. Ltd. *(May 2023 - Present)*

Software Developer

Developing user-friendly web applications with seamless interactions, translating Figma designs into responsive and interactive UIs.
